

Lewiston High School Students' Visit to Magnetic and Electronic Materials Lab

- 10 seniors and one teacher from Lewiston High School (Science Club)
- Date: April 13, 2004
- Time: 9:00 am ~ 2:00 pm
- Topics:
 - MSE program and research introduced by Professor Y. K. Hong
 - Lab tour: magnetic and electronic materials laboratory (S. H. Gee, Kelsey Miller, and William Stuck)
 - Hand on experience: sputter deposition, nano-particles decanting, SEM, and centrifuge (S. H. Gee, Kelsey Miller, and William Stuck)

Materials Science and Engineering

This diagram illustrates how materials science is a bridge of knowledge from the basic sciences to engineering.
